

Dear potential customers and partners,

Net Trans – World Wide

Internet: www.ntrans.com

If you talk to any travel agent in any country in the world, they all have the same problem. They make numerous hotel bookings for their customers, but a large proportion of their well earned commission is never paid to them.

Net Trans was created to resolve this.

After several years and many valuable experiences, we currently have thousands of customers from over 80 countries using Net Trans to collect all of their hotel commission.

Once we have won customers, we rarely lose them. Our world leading hotel commission collection and reconciliation process is tailored exactly to our customers needs, much because the system originally was built by travel booking professionals, for the travel industry.

So, if you want to increase commission receipts by on average 30-50 per cent, cut administrative costs and improve your hotel data at the same time – e-mail us at sales@ntrans.com or call +47 3334 9600. (If you are based in Germany, the UK, France, Spain or Asia-Pacific, go to the contact page to get in touch with our local representative

Look forward to hearing from you!

Kind regards

Net Trans Services
